

## Model IG15/S Integrated Electric Grill Module

With the Wolf grill module you can grill steaks and all sorts of food indoors and without the hassle of lava rocks or briquettes. Two 1400-watt heating elements—front and back—enable you to cook on one side of the module while keeping other items at serving temperature. For ease of cleaning, unwanted grease is drained into a removable collection pan. Model IG15/S is available in classic stainless steel.

### Features

- Integrated design allows for installation of multiple cooktops or modules
- Stainless steel top construction with classic stainless steel finish
- Two 1400-watt, individually controlled heating elements—front and back—for even grilling
- Illuminated electronic touch controls with graduated control lighting
- Low-profile, one-piece cast iron grilling grate with matte porcelain finish
- Black porcelain-coated grease deflection plates
- Easy-to-clean, removable porcelain collection pan
- Independent digital timer
