

Convection Microwave Oven

MODEL MWC24

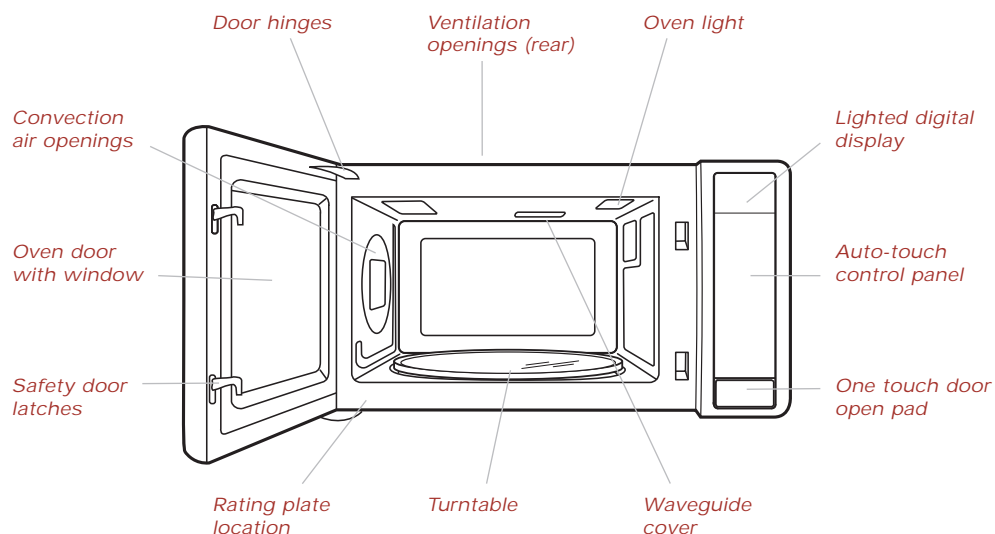

Model MWC24
(free-standing)

Model MWC24
(30" trim)

Model MWC24
(36" trim)

► The Wolf Model MWC24 24" (610) convection microwave oven can be used free-standing or with optional 30" (762) or 36" (914) trim, it can be built in to fit above a Wolf 30" (762) or 36" (914) single oven. Optional trim is available in classic, platinum or carbon stainless steel finish.

Taking the experience we've gained from our microwave ovens and combining that with the expertise of convection, Wolf has brought the best of both cooking technologies together in one unit.

This handsome unit comes with optional trim to mount the unit next to a 30" (762) or 36" (914) Wolf oven and finish off your cooking tower in a single look. The trim comes in three stainless steel looks—classic, platinum and carbon.

Aside from looking beautiful whether you use it in conjunction with an oven or not, the unit offers you all the performance you would expect from Wolf—a cooking company with a heritage of nearly 75 years in the kitchen.

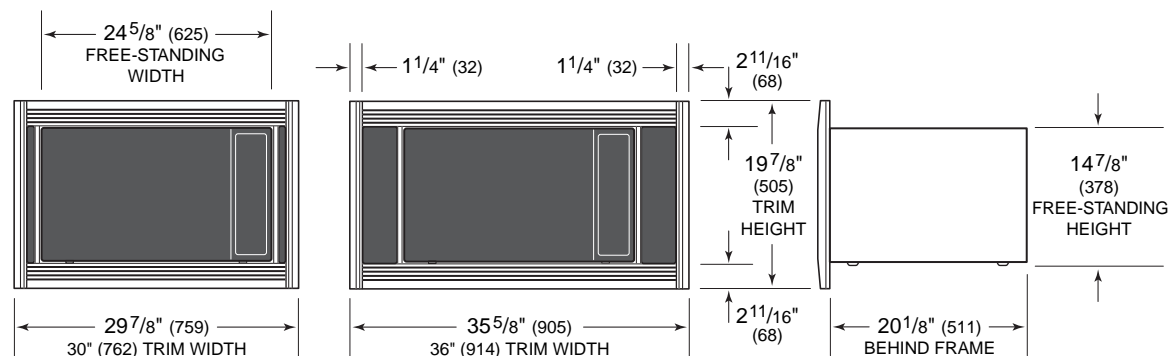

Convection Microwave Oven

MODEL MWC24

FEATURES

- ▶ Built-in or free-standing convection microwave oven with 1.5 cu ft (43 L) capacity and 900 watts of power
- ▶ Optional 30" (762) or 36" (914) trim allows microwave to be built in to fit above a Wolf built-in oven
- ▶ Classic, platinum or carbon stainless steel trim finishes

- Dimensions in parentheses are in millimeters unless otherwise specified.
- Dimensions shown in the illustrations are for installation of the microwave oven with 30" (762) trim.

Convection Microwave Oven

INSTALLATION (30" TRIM)

INSTALLATION NOTES

- ▶ Refer to the illustrations and specifications for overall dimensions, rough openings and installation specifics.
 - ▶ The Wolf convection microwave oven can be used free-standing or with optional 30" (762) trim, can be built in to fit above a Wolf 30" (762) single oven. The base platform must be able to support 125 lbs (57 kg).
- IMPORTANT NOTE:** In all instances, where the microwave oven is built in, you must use one of Wolf's trim kits to ensure proper ventilation.
- ▶ At installation, wood cleats (not included) must be added to the microwave opening for the 30" (762) trim. Refer to the installation instructions provided with the trim kit for detailed specifications. These instructions can also be found on the Wolf website at wolfappliance.com.
 - ▶ When using the Wolf microwave oven as a free-standing unit, allow 2" (51) of airflow space on top, rear and both sides. A minimum 20¹/₈" (511) cabinet depth is required.

- ▶ The Wolf convection microwave oven requires a separate, grounded 120 V AC, 60 Hz power supply. The service should have its own 15 amp circuit breaker and a grounded 3-prong receptacle should be located within the reach of the 3¹/₂' (1.1 m) power cord. Locate electrical within the shaded area shown in the installation illustration.

IMPORTANT NOTE: A ground fault circuit interrupter (GFCI) is not recommended and may cause interruption of operation.

- ▶ The Wolf convection microwave oven with 30" (762) trim may be installed in combination with a 30" (762) single oven and/or warming drawer. Refer to the **General Applications** section for additional installation specifications.
- ▶ You must follow all National Electrical Code regulations. In addition, be aware of local codes and ordinances when installing your service.
- ▶ Refer to the installation instructions shipped with each Wolf product for detailed specifications.

Convection Microwave Oven

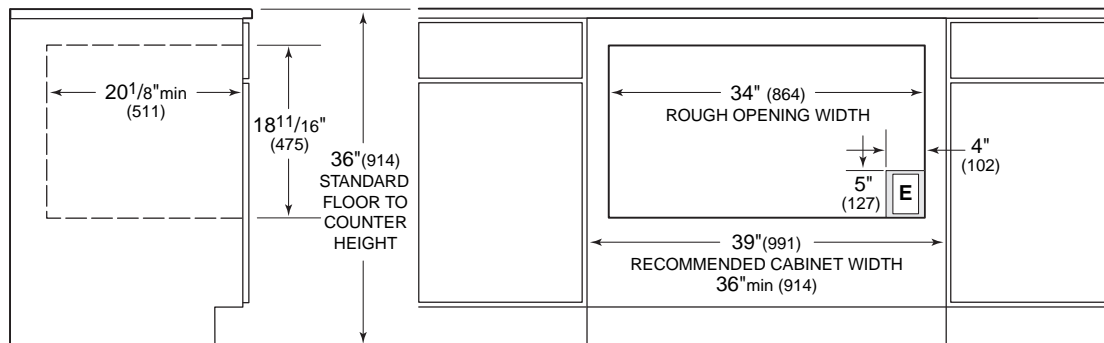

INSTALLATION (36" TRIM)

INSTALLATION NOTES

► Refer to the illustrations and specifications for overall dimensions, rough openings and installation specifics.

► The Wolf convection microwave oven can be used free-standing or with optional 36" (914) trim, can be built in to fit above a Wolf 36" (914) single oven. The base platform must be able to support 125 lbs (57 kg).

IMPORTANT NOTE: In all instances, where the microwave oven is built in, you must use one of Wolf's trim kits to ensure proper ventilation.

► At installation, wood cleats (not included) must be added to the microwave opening for the 36" (914) trim. Refer to the installation instructions provided with the trim kit for detailed specifications. These instructions can also be found on the Wolf website at wolfappliance.com.

► When using the Wolf microwave oven as a free-standing unit, allow 2" (51) of airflow space on top, rear and both sides. A minimum 20¹/₈" (511) cabinet depth is required.

► The Wolf convection microwave oven requires a separate, grounded 120 V AC, 60 Hz power supply. The service should have its own 15 amp circuit breaker and a grounded 3-prong receptacle should be located within the reach of the 3¹/₂' (1.1 m) power cord. Locate electrical within the shaded area shown in the Installation illustration.

IMPORTANT NOTE: A ground fault circuit interrupter (GFCI) is not recommended and may cause interruption of operation.

► The Wolf convection microwave oven with 36" (914) trim may be installed in combination with a 36" (914) single oven and/or warming drawer with integrated drawer front. Refer to the **General Applications** section for additional installation specifications.

► You must follow all National Electrical Code regulations. In addition, be aware of local codes and ordinances when installing your service.

► Refer to the installation instructions shipped with each Wolf product for detailed specifications.
