Front Panel Information

G2000 Fully Integrated Models

Custom Panel Installations

Some Miele dishwashers do not come equipped with a front panel. These dishwashers are designed to accept a custom door panel supplied by the cabinet maker. Miele has a unique panel integration system which allows the dishwasher to align with the surrounding cabinets.

Panel size is determined in the following manner:

Width: 23 7/16" in all cases

Thickness: 3/4" in all cases

Height: Determined using the following calculation:

$$\text{Panel Height} = \text{HTC} - \text{TKH}$$

HTC = Height to the underside of countertop

TKH = Toe-kick height

Note: Control panel is along the top edge of the unit. It is not visible when the unit is closed. A handle **MUST** be located on the front panel in order to open the unit

Maximum panel height: 31 7/8"

Minimum panel height: 27 3/16"

Maximum panel weight: 21 Pounds

GFVi Installations

In lieu of a custom front, Miele offers a decorative panel system called a GDU kit. GDU kits vary depending upon the model chosen. Each GDU kit contains a front panel and a toe-kick cover.
