

GE[®] air conditioner accessories

Vertical Zoneline[®]/Zoneline[®]/Built-in models

Vertical Zoneline® units

Vertical Zoneline units

RAVRMS (AZ Series*—7500) **Wall-Mounted Room Air Sensor**

- Wall-mounted room air sensor provides Temperature Limiting and Freeze Sentinel™ capability.
- Includes 3-meter conductor wire for hook-up to Vertical Zoneline.
- Required for Motion Sensor/Door Switch applications.

RAVWP6 (AZ Series*—7500) **Wall Plenum**

- Wall Plenum for installation in walls less than 6" thick.
- Wall Plenum 19-3/4" x 32".
- Wall cutout dimensions 20" x 32-1/4".
- Warm gray beige color.

RAVWP8 (AZ Series*—7500) **Wall Plenum**

- Wall Plenum for installation in walls less than 8" thick.
- Wall Plenum 19-3/4" x 32".
- Wall cutout dimensions 20" x 32-1/4".
- Warm gray beige color.

RAVWP12 (AZ Series*—7500) **Wall Plenum**

- Wall Plenum for installation in walls less than 12" thick.
- Wall Plenum 19-3/4" x 32".
- Wall cutout dimensions 20" x 32-1/4".
- Warm gray beige color.

Vertical Zoneline® units

RAVWP15 (AZ Series*—7500)

Wall Plenum

- Wall Plenum for installation in walls less than 15" thick.
- Wall Plenum 19-3/4" x 32".
- Wall cutout dimensions 20" x 32-1/4".
- Warm gray beige color.

RAVAL1 (AZ Series*—7500)

Aluminum Outdoor Grille

- Extruded Aluminum Outdoor Grille for installation on RAVWP series wall plenums.
- Grille is 19-3/4" x 32" x 1-1/4".
- Mill finish.

RAVRG1 (AZ Series*—7500)

Access Panel with Return Air Grille

- Access Panel with Return Air Grille for installation in closet wall.
- Allows access/removal of Vertical Zoneline for cleaning or service.
- Outside dimensions 30" x 50".
- Wall cutout dimensions 28" x 48".
- Accepts 20" x 20" x 1" field-supplied filter.
- Warm gray beige color.

RAVRG2 (AZ Series*—7500)

Return Air Grille

- Return Air Grille for installation in common wall to closet.
- Exterior dimensions 22-1/2" x 22-1/2".
- Wall cutout dimension 20-3/8" x 20-3/8".
- Accepts 20" x 20" x 1" field-supplied filter.
- Warm gray beige color.

RAK5157/5207/5307†

(AZ Series*—2800, 3800, 5500, 5800 and 7500 only)

265/277-Volt Universal Power Supply Kit

- 9-pin connector with three 7" 12-gauge conductor wires.

Kit No.	Volts	Heater Wattage	Circuit Ampacity
RAK5157	265/277	2.55 kw	15
RAK5207	265/277	3.45 kw	20
RAK5307	265/277	5.00 kw	30

RAK4157/4207/4307†

(AZ Series*—2800, 3800, 5500, 5800 and 7500 only)

230/208-Volt Universal Power Supply Kit

- 9-pin connector with three 7" 12-gauge conductor wires.

Kit No.	Volts	Heater Wattage	Circuit Ampacity
RAK4157	230/208	2,550/2,090	15
RAK4207	230/208	3,450/2,820	20
RAK4307	230/208	5,000/4,090	30

RAK3152/3202/3302†

(AZ Series*—5100, 5200, 5500 and 7500 only)

15, 20, and 30 Amp (230/208 Volts)

Universal Power Supply

Kit No.	Volts	Heater Wattage	Circuit Ampacity
RAK3152	230/208	2,550/2,090	15 
RAK3202	230/208	3,450/2,820	20 
RAK3302	230/208	5,000/4,090	30 

***A-B Series:** Zonelines built before 1987 – Zoneline I, II, III, and IV; **AZC Series:** Zonelines built from 1987 to 1992 – includes AZR Series – Zoneline 1000, 2000, 2500, 2700, 3000, 4000, 5000; **AZ Series:** Zonelines built after 1992 – Zoneline 2100, 3100, 2600, 5100 / Zoneline 2200, 3200, 5200 / Zoneline 2500, 3500, 5500 / Zoneline 2800, 3800, 5800.

†The power connection kit determines the heater wattage and current requirements when it is plugged into the Zoneline unit. NOTE: All power cord kits and permanent connection kits may be used on all units (of matching voltage). NOTE: 7,000 BTU models do not have 5,000 watt heaters.

Zoneline® units

Zonline units

RAB71A (All Zonline Series)

Standard Wall Case

The RAB71A is a galvanized steel wall sleeve with expanded polystyrene foam insulation. It is welded and protected with baked-on enamel. Welded areas are protected with a sealing compound to prevent rust. The RAB71 wall case accepts all Zonline chassis models.

RAB77A4 (All Zonline Series)

SMC Wall Case

The Zonline SMC universally designed wall case by GE utilizes a fiberglass-reinforced polyester compound to produce a durable, non-corrosive wall case for all Zonline Packaged Terminal Air Conditioners and Heat Pumps. The RAB77A4 SMC wall case accepts all Zonline chassis models.

RAD10 (All Zonline Series)

Internal/External Drain Kit

For more positive control of condensate water, the RAD10 drain kit routes condensate to the exterior or to the interior of the building through the wall case. Suitable provision (field applied) should be made to connect the RAD10 drain tube to a drain system in the building. Drain tube assemblies are 1/2" O.D. copper and consist of a short right-angle tube and a 6"-long straight tube to suit the particular application.

RAF452 (AZ Series*—2200, 3200 and 5200 only)

Replacement Standard Room Cabinet

Room cabinet with wrap-around design has attractive textured finish which matches unit sleeve. Cabinet is injection-molded of high-impact polystyrene. Cabinet fastens to chassis without tools or hardware. The room cabinet contains the slide-out filters and 2-position reversible discharge louvers.

RAF452A (AZ Series*—2500, 3500 and 5500 only)

Replacement Standard Room Cabinet

Room cabinet with wrap-around design has attractive textured finish which matches unit sleeve. Cabinet is injection-molded of high-impact polystyrene. Cabinet fastens to chassis without tools or hardware. The room cabinet contains the slide-out filters and 2-position reversible discharge louvers.

*A-B Series: Zonelines built before 1987 – Zonline I, II, III, and IV; AZC Series: Zonelines built from 1987 to 1992 – includes AZR Series – Zonline 1000, 2000, 2500, 2700, 3000, 4000, 5000; AZ Series: Zonelines built after 1992 – Zonline 2100, 3100, 2600, 5100 / Zonline 2200, 3200, 5200 / Zonline 2500, 3500, 5500 / Zonline 2800, 3800, 5800.

Zonline® units

RAF453 (AZ Series*—2800, 3800 and 5800 only)

Replacement Standard Room Cabinet

Room cabinet with wrap-around design has attractive textured finish which matches unit sleeve. Cabinet is injection-molded of high-impact polystyrene. Cabinet fastens to chassis without tools or hardware. The room cabinet contains the slide-out filters and 2-position reversible discharge louvers.

RAG60 (AZ Series*)

Stamped Aluminum Exterior Rear Grille

The standard exterior grille is made of durable aluminum to protect chassis components and minimize air recirculation.

RAG61/62/63

RAG61/62/63 (AZ Series*)

Architectural Rear Grille

Optional, one-piece molded grille and frame assembly for improved appearance and protection. Grilles are molded of GE Cycology® and have a slightly textured, colorfast surface to blend with most walls.

RAG61 – Beige, RAG62 – Maple, RAG63 – Dark Brown

RAG67 (AZ Series*)

Aluminum Architectural Outdoor Grille

- Extruded aluminum outdoor grille for use with RAB71, RAB77, and extended wall cases.
- Grilles are paintable to match building décor.

RAKOIM (AZ Series*—2200, 3200 and 5200 only)

Optional Interface Module for Central Desk Control or Remote Thermostat Control

The RAKOIM is required if a unit is to be installed with a Central Desk Control or a Remote Thermostat Control. Includes screw, and a short wire harness on the RAKOIM that is plugged into the mating receptacle on the front of the control box.

***A-B Series:** Zonelines built before 1987 – Zonline I, II, III, and IV; **AZC Series:** Zonelines built from 1987 to 1992 – includes AZR Series – Zonline 1000, 2000, 2500, 2700, 3000, 4000, 5000; **AZ Series:** Zonelines built after 1992 – Zonline 2100, 3100, 2600, 5100 / Zonline 2200, 3200, 5200 / Zonline 2500, 3500, 5500 / Zonline 2800, 3800, 5800.

Zoneline units

RAK40 (AZ Series*)

Air Deflector Kit

Kit adapts AZ chassis for use with older GE architectural grilles. The aluminum deflectors are installed to the condenser end sheet flanges to prevent condenser airflow recirculation. The kit also allows some custom (non-standard) rear grilles to be used, provided they have sufficient open area.

RAK605 (AZ Series*—2100 and 3100 only)

Duct Adapter

(Not for 2600 and 5100 Series)

The RAK605 duct adapter is attached to the top of the wall case to allow the air from the Zoneline to heat or cool an adjacent room. Duct extension RAK601 can be applied to right or left of the adapter. (Zoneline 5100 Series not approved for ducted application).

RAK6052 (AZ Series*—2200, 2500, 2800, 3200, 3500, and 3800 only)

Duct Adapter

(Not for 5200, 5500 or 5800 Series)

The RAK6052 duct adapter is attached to the top of the wall case to allow the air from the Zoneline to heat or cool an adjacent room. Duct extension RAK601 can be applied to right or left of the adapter. (Zoneline 5200 and 5500 Series not approved for ducted application).

RAK601/602 (AZC and AZ Series*—2100, 2200, 2500, 2800, 3100, 3200, 3500 and 3800 only)

Duct Extension, Register and Trim Flange

RAK601 is a 44"-long duct and includes an air register and trim flange for the secondary space. If two extensions are made from one RAK601 duct, an additional air register and trim flange can be ordered separately as an RAK602—reducing the cost of the installation. For use with RAK605 and RAK6052.

Zonline® units

RAK7012 (AZ Series*—2200, 2500, 3200, 3500, 2800 and 3800 only)

Duct Adapter for Replacement of A-B with Rounded Front AZ Chassis

The RAK7012 duct adapter is designed to line up with the duct extension where the original chassis was a flat-top discharge A-B Series. Using the RAK7012 will allow the existing duct extension to be used without requiring the relocation of the hole through the wall to the adjacent room. Discharge grille, end plate, and extension mounting hardware must be removed from old duct adapter and installed on the RAK7012.

RAK702 (AZ Series*—2100 and 3100 only)

Duct Transition for Replacement of AZC with Sloped Front AZ Chassis

The RAK702 duct transition is designed to allow duct installation where the original chassis was a slope front discharge (AZC or AZR) chassis. Using the RAK702 will allow the existing duct adapter and extension to be used without requiring the relocation of the hole through the wall to the adjacent room.

RAK7022 (AZ Series*—2200, 2500, 2800, 3200, 3500 and 3800 only) **Duct Transition for Replacement of AZC with Rounded Front AZ Chassis**

The RAK7022 duct transition is designed to allow duct installation where the original chassis was a slope front discharge (AZC/AZR/AZ21/AZ31) chassis. Using the RAK7022 will allow the existing duct adapter and extension to be used without requiring the relocation of the hole through the wall to the adjacent room.

RAK201 (AZC and AZ Series*)
Access Plate Cover

The RAK201 access plate cover is made of heavy-gauge steel with multiple knockouts for special applications. Will adapt to service conduit .875" or 1.125"; circuit breaker up to 30 amp or 30 amp receptacle. The RAK201 fits old sub-bases RAK120, RAK121 and RAK122 for easy replacement of A-B series with AZC and AZ series.

*A-B Series: Zonelines built before 1987 – Zoneline I, II, III, and IV; AZC Series: Zonelines built from 1987 to 1992 – includes AZR Series – Zoneline 1000, 2000, 2500, 2700, 3000, 4000, 5000; AZ Series: Zonelines built after 1992 – Zoneline 2100, 3100, 2600, 5100 / Zoneline 2200, 3200, 5200 / Zoneline 2500, 3500, 5500 / Zoneline 2800, 3800, 5800.

Zoneline units

Power cord and junction box not included with sub-base.

RAK204 (AZ Series*—2200, 2500, 3200 and 3500 only) Standard Sub-Base

The RAK204 sub-base is made of heavy-gauge steel to provide support of the wall case. It has full base enclosure with break-away side channels, simple connection to wall case, and 4-point leveling legs. The sub-base will adapt to service conduit, circuit breakers and receptacles up to 30 amps. It may also be used as a non-electrical sub-base to provide support for the unit.

Kit No.	Sub-Base	Circuit Ampacity	Chaseway	Power Cord
RAK204U**	Standard	N/A	Not Included	Not Included
RAK204D20	Sub-Base 230/208V	15 & 20	Included	Not Included

RAK205CW (AZ Series*—2200, 2500, 2800, 3200, 3500, 3800, 5200, 5500 and 5800 only) Chaseway

Chaseway for wiring containment between junction box on chassis and RAK204U sub-base.

RAK5157/5207/5307† (AZ Series*—2800, 3800, 5500 & 5800 only) 265/277-Volt Universal Power Supply Kit

- 9-pin connector with three 7" 12-gauge conductor wires.

Kit No.	Volts	Heater Wattage	Circuit Ampacity
RAK5157	265/277	2.55 kw	15
RAK5207	265/277	3.45 kw	20
RAK5307	265/277	5.00 kw	30

*A-B Series: Zonelines built before 1987 – Zoneline I, II, III, and IV; AZC Series: Zonelines built from 1987 to 1992 – includes AZR Series – Zoneline 1000, 2000, 2500, 2700, 3000, 4000, 5000; AZ Series: Zonelines built after 1992 – Zoneline 2100, 3100, 2600, 5100 / Zoneline 2200, 3200, 5200 / Zoneline 2500, 3500, 5500 / Zoneline 2800/3800/5800.

**RAK204U May be used with AZC and AZ 2100, 3100, 2600 and 5100.

†The power connection kit determines the heater wattage and current requirements when it is plugged into the Zoneline unit. NOTE: All power cord kits and permanent connection kits may be used on all units (of matching voltage). NOTE: 7,000 BTU models do not have 5,000 watt heaters.

Zonline® units

RAK4157/4207/4307†

(AZ Series*—2800, 3800, 5500, 5800 and 7500 only)

230/208-Volt Universal Power Supply Kit

- 9-pin connector with three 7" 12-gauge conductor wires.

Kit No.	Volts	Heater Wattage	Circuit Ampacity
RAK4157	230/208	2,550/2,090	15

RAK4002 (AZ Series*—2200, 3200 and 5200 only)

Direct Connect Junction Box

(230/208 and 265/277 Volts)

RAK4002 junction box kit for permanent connection of 230/208- and 265/277-volt units to building power supply.

Includes multi-circuit connector harness for use on value line units. Junction box is included on 265/277-volt units.

RAK4002A (AZ Series*—2500, 2800, 3500 and 3800 only)

Direct Connect Junction Box

(230/208 and 265/277 Volts)

RAK4002 junction box kit for permanent connection of 230/208- and 265/277-volt units to building power supply.

Includes multi-circuit connector harness for use on value line units. Junction box is included on 265/277-volt units.

*A-B Series: Zonelines built before 1987 – Zonline I, II, III, and IV; AZC Series: Zonelines built from 1987 to 1992 – includes AZR Series – Zonline 1000, 2000, 2500, 2700, 3000, 4000, 5000; AZ Series: Zonelines built after 1992 – Zonline 2100, 3100, 2600, 5100 / Zonline 2200, 3200, 5200 / Zonline 2500, 3500, 5500 / Zonline 2800, 3800, 5800.

†The power connection kit determines the heater wattage and current requirements when it is plugged into the Zonline unit. NOTE: All power cord kits and permanent connection kits may be used on all units (of matching voltage). NOTE: 7,000 BTU models do not have 5,000 watt heaters.

Zonline units

RAK4002B (AZ Series*—5500 and 5800 only)
Direct Connect Junction Box
(230/208 and 265/277 Volts)

RAK4002 junction box kit for permanent connection of 230/208- and 265/277-volt units to building power supply.
Includes multi-circuit connector harness for use on value line units. Junction box is included on 265/277-volt units.

RAK4002CW (AZ Series*)
Direct Connect Junction Box Wiring
(230/208 and 265/277 Volts)

In-line 3-pin connector and wiring harness.
Allows easy disconnect of direct connected applications.

RAK5172/5202/5302[†]
(AZ Series*—2800, 3800, 5500 and 5800 only)
15, 20, and 30 Amp (265/277 Volts)
Universal Power Supply

Required for 5200 series 265/277-volt units.

- Branch circuit plug to be used only in connection to appropriate sub-base.

Circuit

Kit No.	Volts	Heater Wattage	Ampacity
RAK5172	265/277	2,550	15 
RAK5202	265/277	3,450	20 
RAK5302	265/277	5,000	30 

RAK8022
(AZ Series*—2200, 2500, 3200, 3500, 5200 and 5500 only)
Locking Door Kit

The RAK8022 provides door lock kit and key to prevent access to Zonline unit controls. Also provides two thumb screws for securing the room cabinet to the chassis on the lower right and left sides.

RAK8023 (AZ Series*—2800, 3800 and 5800 only)
Locking Door Kit

The RAK8023 provides door lock kit and key to prevent access to Zonline unit controls. Also provides two thumb screws for securing the room cabinet to the chassis on the lower right and left sides.

***A-B Series:** Zonelines built before 1987 – Zonline I, II, III, and IV; **AZC Series:** Zonelines built from 1987 to 1992 – includes AZR Series – Zonline 1000, 2000, 2500, 2700, 3000, 4000, 5000; **AZ Series:** Zonelines built after 1992 – Zonline 2100, 3100, 2600, 5100 / Zonline 2200, 3200, 5200 / Zonline 2500, 3500, 5500 / Zonline 2800, 3800, 5800.

[†]The power connection kit determines the heater wattage and current requirements when it is plugged into the Zonline unit. NOTE: All power cord kits and permanent connection kits may be used on all units (of matching voltage). NOTE: 7,000 BTU models do not have 5,000 watt heaters.

Zonline® units

RAK806 Universal Cover Label (10 covers per kit)

The RAK806 provides a cover for the control area to refer room occupant to use a remote thermostat. Double-sided tape provided.

RAA62 (AZ Series*—2200, 3200 and 5200 only)

Replacement Filters for AZ Models

(20 pairs per box)

The up-front filters on the GE Zonline unit are conveniently accessed by simply pulling them up from the top of the room cabinet. By simplifying the task, filter cleaning is more likely to occur on schedule and the unit will operate as efficiently as possible. Sold in pairs.

RAA62A (AZ Series*—2500, 3500 and 5500 only)

Replacement Filters

- Replacement filters, in pairs.
- 20 pairs per box.

RAA63 (AZ Series*—2800, 3800 and 5800 only)

Replacement Filters

- Replacement filters, in pairs.
- 10 pairs per box.

RAK901L (AZ Series*)

Wall Case Insulation Kit

Five pieces of 13" x 14" x 1/4" adhesive-backed polyethylene to insulate the inside of the RAB70 or RAB77A4 wall case. The RAK901L minimizes the formation of moisture on exterior of wall case.

*A-B Series: Zonelines built before 1987 – Zonline I, II, III, and IV; AZC Series: Zonelines built from 1987 to 1992 – includes AZR Series – Zonline 1000, 2000, 2500, 2700, 3000, 4000, 5000; AZ Series: Zonelines built after 1992 – Zonline 2100, 3100, 2600, 5100 / Zonline 2200, 3200, 5200 / Zonline 2500, 3500, 5500 / Zonline 2800, 3800, 5800.

Built-in units

Built-in units

RAD4A1 Drain Kit

Internal/External Drain Kit

Drain kit for use on "J" series wall cases. For more positive control of condensate water, the RAD4A1 drain kit routes condensate to the exterior or to the interior of the building through the wall case. Suitable provision (field applied) should be made to connect the drain tube to a drain system in the building. Drain tube assembly is 1/2" O.D. copper.

Note: The RAG14E exterior grille is NOT compatible with the RAD4A1 EXTERNAL drain tube. Use of this grille would require the use of the INTERNAL TUBE configuration to drain the unit.

RAK65A1 Window Installation Kit for "J" Series Built-in Units

Adapts built-in wall case for window installation. (This kit is included in "J" series units designed for window installation.) Window opening width—26-7/8" to 40". Window opening height—16-3/8" minimum.

RAB46 Standard Wall Case for "J" Chassis Built-in Unit

Solid-sided wall case fabricated of galvanized steel with baked enamel (beige) finish. Welded areas are coated with a sealing compound to help resist rust and corrosion. Polymer gasket surrounds opening to assure tight weather seal. Aluminum grille (RAG13) is included. Panels on interior and between case and grille provide weather protection prior to installation of chassis.

RAB47/48 Tenant Option Wall Cases for "J" Chassis

When the air conditioner is offered as a tenant option, these wall cases provide protection against outside elements.

RAB47—includes wall case, exterior grille, weather panel and steel closure panel.

RAB48—includes wall case, exterior grille, insulated steel indoor closure panel and insulated outdoor panel.

RAK66 Wall Case Insulation Kit

Kit consists of an insulated steel front cover and a black-painted ESP rear cover. When installed in a RAB46 standard wall case, the kit will protect room from the outside elements prior to installation of a GE "J" series chassis.

Built-in units

RAG13 Stamped Aluminum Exterior Grille "J" Series

Used to replace exterior grille on old "J" wall case to maximize efficiency and capacity of new chassis. The grille is included with new wall cases RAB46, 47, or 48.

RAG14E Architectural Louvered Exterior Grille for "J" Series

Extruded aluminum grille for application with RAB46, 47, or 48.

NOTE: The RAG14E exterior grille is NOT compatible with the RAD4A1 EXTERNAL drain tube. Use of this grille would require the use of the INTERNAL TUBE configuration to drain the unit.

RAF622 Replacement Room Front for Rounded Front "J" Chassis

Used as replacement grille for rounded front "J" chassis units. (Not for use with high mount units.)

RAF622A Replacement Room Front for Rounded Front "J" Chassis

- Replacement Room Front for "J" series chassis with Oval Control Knob opening.
- Not for use on High Mount Models.

RAK690 Architectural Louver Grille Adapter for "J" Chassis Units

Permits most existing architectural louvered grilles to be used with sloped front or rounded front "J" chassis units. Kit consists of two wire mesh screen sections, clips to attach screen to existing wall case, and two aluminum air deflectors to be mounted to new chassis.

Built-in units

RAK1072 Hotpoint Chassis Sleeve Adapter

Kit adapts Hotpoint ACXB 10 and ACXB 11 wall case (used with ACTB chassis) to the sloped front or rounded front "J" chassis. Existing case dimensions are 25-3/4" W, 16-7/8" H, 18-5/8" D. All needed gaskets and hardware, including the outdoor grille, are included.

RAK1082 Whirlpool Sleeve Adapter

Kit adapts Whirlpool Type 23W wall case for installation of the sloped front or rounded front "J" model chassis. The Whirlpool case dimensions are 25-7/8" W, 16-1/2" H, 23-1/8" D.

RAK1102/RAB30 (F Model Sleeve) Adapter

Kit adapts RAB30 wall case for installation of the sloped front or rounded front "J" model chassis. The RAB30 case dimensions are 26" W, 18" H, 24" D.

RAK123A64 Fedders Sleeve Adapter

Kit adapts Fedders "A" wall case for installation of the "J" wall case (includes outdoor grille) and "J" model chassis. Existing Fedders wall case dimensions are 27" W, 16-3/4" H, 16-3/4" D. Kit consists of four gaskets which are applied to the wall case to assure a tight weather seal between the two cases.

Built-in units

RAA72 Replacement Filter for Rounded Front "J" Chassis

- Replacement filter for use in Room Fronts with 2 Round Control Knob openings ONLY.
- Washable/reusable nylon mesh filter.
- Order individually or by box of 20.
- Used for Standard or High Mount models.

RAA72A Replacement Filter for Rounded Front "J" Chassis

- Replacement filter for use in Room Fronts with Oval Control Knob openings ONLY.
- Washable/reusable nylon mesh filter.
- Order individually or by box of 20.
- Used for Standard or High Mount models.

Thermostats—Heat pump

RAK147 (A-B, AZ, and AZR Series*) **Wall-Mounted Remote Thermostat**

RAK147 is used with heat pump units. Units have integral low-voltage terminal board to connect with thermostat. Temperature, operation mode, and fan operation are controlled at wall-mounted thermostat.

Note: 3200/5200 series requires RAKOIM.

RAK348T1—Wall-Mounted Thermostat (transmitter) (AZ3500, 3800, 5500, 5800 and 7500 series) **Heat Pump Wireless Programmable Remote Thermostat**

RAK348R1—Chassis-Mounted Receiver (AZ3500, 3800, 5500, 5800 and 7500 series) **Heat Pump Wireless Programmable Remote Receiver**

- Programmable wireless remote thermostat with Single-Stage Cooling and 2-Stage Heating for heat pump models.
- Programmable for 7-day programs.
- Battery-operated transmitter uses standard AA batteries.
- Receiver is mounted on chassis and wired to low voltage-terminals.

RAK148D1 (A-B, AZ, 3500, 3800, 5500, 5800, 7500 and AZR Series*)

Heat Pump Digital Remote Thermostat

- 24V AC digital remote wall thermostat with Single-Stage Cooling and 2-Stage Heating for heat pump models.
- Requires 6-wire hook-up.

RAK148P1 (A-B, AZ, 3500, 3800, 5500, 5800, 7500 and AZR Series*) **Heat Pump Programmable Remote Thermostat**

- 24V AC programmable remote wall thermostat with Single-Stage Cooling and 2-Stage Heating for heat pump models.
- Programmable for 7-day or 5 + 2-day programs.
- Requires 6-wire hook-up.

***A-B Series:** Zonelines® built before 1987 – Zoneline I, II, III, and IV; **AZC Series:** Zonelines built from 1987 to 1992 – includes AZR Series – Zoneline 1000, 2000, 2500, 2700, 3000, 4000, 5000; **AZ Series:** Zonelines built after 1992 – Zoneline 2100, 3100, 2600, 5100 / Zoneline 2200, 3200, 5200 / Zoneline 2500, 3500, 5500 / Zoneline 2800, 3800, 5800.

Thermostats—Electric Resistance Heat

RAK163A1 (A-B, AZ, and AZR Series*)

Cooling with Electric Heat Remote Thermostat

RAK163A1 is used with resistance heat models. Units have integral low-voltage terminal board to connect with thermostat. Temperature, operation mode, and fan operation are controlled at wall-mounted thermostat.

Note: 2200 series requires RAKOIM.

RAK364T1—Wall-Mounted Thermostat (transmitter)

(AZ2500, 2800, and 7500 series*)

Electric Heat Wireless Programmable Remote Thermostat

RAK364R1—Chassis-Mounted Receiver

(AZ2500, 2800, and 7500 series*)

Electric Heat Wireless Programmable Remote Receiver

- Programmable wireless remote thermostat with Single-Stage Cooling and Single-Stage Heating for electric (resistance) heat models.
- Programmable for 7-day programs.
- Battery-operated transmitter uses standard AA batteries.
- Receiver is mounted on chassis and wired to low-voltage terminals.

RAK164D1 (A-B, AZ, 2500, 2800, 7500 and AZR Series*)

Cooling with Electric Heat Digital Remote Thermostat

- 24V AC digital remote wall thermostat with Single-Stage Cooling and Single-Stage Heating for resistance heat models.
- Requires 5-wire hook-up.

RAK164P1 (A-B, AZ, 2500, 2800, 7500 and AZR Series*)

Cooling with Electric Heat Programmable Remote Thermostat

- 24V AC programmable remote wall thermostat with Single-Stage Cooling and Single-Stage Heating for resistance heat models.
- Programmable for 7-day or 5+2-day programs.
- Requires 5-wire hook-up.

***A-B Series:** Zonelines built before 1987 – Zoneline I, II, III, and IV; **AZC Series:** Zonelines built from 1987 to 1992 – includes AZR Series – Zoneline 1000, 2000, 2500, 2700, 3000, 4000, 5000; **AZ Series:** Zonelines built after 1992 – Zoneline 2100, 3100, 2600, 5100 / Zoneline 2200, 3200, 5200 / Zoneline 2500, 3500, 5500, Zoneline 2800, 3800, 5800.
