New product introductions 2005  
GE Profile™ and GE® free-standing gas and dual-fuel ranges

imagination at work

## Free-standing gas and dual-fuel range quick pitch

The maximum in cooking performance and flexibility

### Engaging Style

**Deep recessed cooktop with continuous grates** incorporate modern styling and heavy-duty construction to create a cooktop with a high-end appearance that's impressive and practical.

### Easy Cleanability

**Sealed burners, self-clean oven and glass touch controls** are specifically designed to make cleaning incredibly quick and easy, helping users maintain the attractive appearance of the range while ensuring performance.

### Advanced Technology

**Large capacity oven, PowerBoil™ 17,000 BTU and Precise Simmer** offers high-performance capabilities to help cooks do more at once – saving time in the kitchen, offering customized control and creating ideal results.

### Remarkable Versatility

**Dual-fuel electric convection and double ovens** offer high-performance and flexible cooking options that make meal preparation coordinated, convenient and easy – so foods come out evenly baked and are ready at the same time.

## What's new: Free-standing double oven range

The maximum in cooking performance and flexibility

### Lower oven

- Adds additional 1.0 cu. ft. of cooking capacity
- 6.0 cu. ft. total baking capacity when combined with upper oven
- 150°–450° capability for warming and baking
- Upper and lower heating elements
- Provides additional storage when not in use
- Easy-to-clean removable drawer liner
- Available on JGB928, J2B918, JGB918

### Center oval burner

- Adds fifth burner to the cooktop
- Interchangeable center grate removes to insert provided griddle accessory
- Available on J2B918, JGB918, JGB916, JGB908, JGBP88

### Non-stick griddle

- Replaces center grate
- Cooks multiple items like pancakes, sandwiches, quesadillas or sausages
- Flat, non-stick surface
- Provides uniform heat distribution from front to back of griddle
- Included with purchase of range
- Available on J2B918, JGB918, JGB916, JGB908, JGBP88

*Not all features available on all models.*

### PowerBoil™ 17,000 BTU burner

- Maximum 17,000 BTU output
- Accelerates boiling
- Available on J2B918, JGB918, JGB916, JGB908

### Profile stainless sculptured handles

- Durable stainless steel construction
- Sculptured handle coordinates with other GE Profile appliances
- Available on all stainless GE Profile gas range models

## Feature gallery: GE Profile™ free-standing gas and dual-fuel ranges

### QuickSet VI glass touch controls\*

Features a smooth glass design that is easy-to-operate and easy-to-clean.

### Gas on glass cooktop

Features a ceramic glass surface that is easy-to-clean.

### Continuous grates

Allow for easy movement of pots and pans between burners.

### Precise simmer burner

Delivers a low setting of 140°, ideal for delicate foods and sauces.

### Lower oven

Offers an additional 1.0 cu. ft. of capacity for convenient baking from 150°–450°.

### Big ClearView™ window

Allows monitoring the progress of food easy.

GE Profile model JGB928

\*Traditional QuickSet VI controls on stainless models.  
Not all features available on all models.

GE Profile model JGB916

**Deep recessed cooktop**

Helps contain spills for easy cleaning.

**Power Boil™ 17,000 BTU burner**

Delivers 17,000 BTUs of forceful heat for rapid boiling.

**Center oval burner**

Adds a fifth element to the center of the cooktop to accommodate large cookware and deliver ideal results.

**Non-stick griddle**

Offers a flat cooking surface, placed over the center oval burner, for cooking multiple foods at once.

**Sealed cooktop burners**

Contain spills and make cleaning quick and easy.

**Warming drawer**

Provides variable temperature control for keeping foods warm.

## Feature gallery: GE® free-standing gas ranges

### QuickSet V oven controls

Feature easy to use electronic touch pads to simplify oven operation.

### Deep recessed cooktop

Helps contain spills for easy cleaning.

### Dishwasher-safe grates

Features durable construction for worry-free and effortless cleaning and maintenance.

### Non-stick griddle

Offers a flat cooking surface, placed over the center oval burner, for cooking multiple foods at once.

### Center oval burner

Adds a fifth element to the center of the cooktop to accommodate large cookware and deliver ideal results.

### Warming drawer

Provides variable temperature control for keeping foods warm.

**Precise simmer burner**

Delivers a low setting of 140°, ideal for delicate foods and sauces.

**PowerBoil™  
16,000 BTU burner**

Delivers 16,000 BTUs of forceful heat for rapid boiling.

**Sealed cooktop burners**

Contain spills and make cleaning quick and easy.

**Continuous grates**

Allow for easy movement of pots and pans between burners.

**Frameless glass  
oven door**

Offers an easy-to-clean and stylish design that blends seamlessly into existing cabinetry.

**Big ClearView™ window**

Allows monitoring the progress of food easy.

# The inside story: GE Profile™ and GE® free-standing gas and dual-fuel ranges

## GE Profile upper oven interior

### 5.0 cu. ft. super-large oven capacity

Gives consumers the room they need to cook large meals.

### Two-speed convection oven

Circulates air throughout the oven ensuring even baking and roasting results.

### Auto Recipe™ conversion

Automatically converts standard recipe temperatures to proper convection settings.

### Oven meat probe

Displays the internal temperature and signals when meats are cooked to perfection.

## GE Profile dual-fuel range

### Dual-fuel range

Offers electric convection oven performance with the responsiveness of a gas cooktop.

## Features on GE Profile and GE models

### TrueTemp™ system

Provides even heat distribution and maximum oven control.

### Certified Sabbath mode

Allows consumers to keep cooked foods warm on the Jewish Sabbath and Jewish holidays.

### GE upper oven interior

#### Extra-large 4.8 cu. ft. capacity

Gives consumers the room they need to cook large meals.

#### In-oven broiling

Features a low and high setting for broiling foods inside the oven.

#### Interior oven light

Makes viewing of the progress of cooking easy and convenient.

#### Two oven racks

Feature a durable construction to help accommodate any size or type of cookware.

#### Six embossed rack positions

Allows consumers to take full advantage of the oven capacity and adjust racks for oversized cookware.

#### Self-clean oven

Conveniently cleans the oven without the need for scrubbing.

# The inside story: GE Profile™ and GE® free-standing gas and dual-fuel ranges

## Lower oven interior

An additional 1.0 cu. ft. capacity adds a second oven to bake at a separate temperature.

### The maximum in cooking versatility

#### Bake

150° to 450° baking makes it ideal for side dishes, breads or casseroles.

#### Warm

Prepared foods can stay warm and ready to serve.

#### Store

Cookware can be stored when the lower oven is not in use.

#### Removable drawer liner

Provides additional convenience for quick and easy cleaning.

#### Full-extension drawer

Allows users to pull out the drawer to the fullest length for effortless loading, unloading and cleaning.

#### Dual element bake

Upper and lower elements provide even heating and optimal results.

## Warming drawer interior

### Multiple settings

Provide added convenience with low, medium and high.

### Warming capability

Helps keep meals coordinated, warm and ready for the table.

### Storage space

Allows cookware to be placed in one organized location.

## Dare to compare

### Capacity

**GE Profile™ double oven ranges**

- Cooking BIG in the 5.0 cu. ft. capacity oven is easy—room enough for six pieces of cookware
- Shown in the GE Profile oven:
  - two 2.5 qt. casseroles
  - 1.5 qt. casserole
  - 1.8 qt. casserole
  - 7 qt. french oven
  - large roasting pan
- **GE delivers all the cooking capacity you will ever need**

**Maytag® Gemini**

- The same six pieces of cookware won't fit into the Maytag 4.0 cu. ft. main oven because it is 25% smaller than the GE Profile oven
- In this example, the Gemini oven is so small that even the 7 qt. french oven, 1.5 qt. casserole dish and 1.8 qt. casserole dish won't fit into the oven at the same time as the other cookware
- **Gemini delivers less than GE**

## Oven placement

**GE Profile double oven ranges**

- Large, heavy, hot roasting pans are NO problem
- Cooking BIG in the 5.0 cu. ft. capacity oven is easy
- Handling big, heavy pans is easy because the food is closer to the cooktop or countertop
- **GE delivers all the cooking convenience you will ever need**

**Maytag Gemini**

- Large, heavy, hot roasting pans are a BIG problem
- Floor level positioning requires constant bending and stooping, making lifting heavy items a pain.
- **Gemini delivers less than GE**

## Dare to compare

### 5th burner performance/versatility

GE Profile™ double oven ranges

- GE Profile 5-burner gas ranges are designed to use the entire cooktop, providing ample cooking space
- Shown on the GE Profile cooktop:
  - two 4 qt. sauce pans
  - 3 qt. sauce pan
  - 3 qt. saute pan
  - 8 qt. stock pot
- **GE delivers all the cooking capacity you will ever need**

Maytag® Gemini

- Gemini has a tiny 5th burner on a cooktop that is too crowded
- Room required for cooking is needed to accommodate the controls
- In this example, the 8 qt. stock pot won't fit on the Gemini cooktop at the same time as the other cookware
- **Gemini delivers less than GE**

GE Profile double oven ranges

- GE Profile 5-burner gas ranges are designed to use a griddle over the very large center oval burner and the griddle is included with every 5-burner gas range
- Shown on the GE Profile cooktop:
  - two 4 qt. sauce pans
  - 3 qt. sauce pan
  - 3 qt. saute pan
  - griddle
- **GE delivers all the cooking capability you will ever need**

Maytag Gemini

- Gemini has a tiny 5th burner on a cooktop that is already too small
- Maytag Gemini does not include a griddle with their range
- Using a typical griddle (available at department stores) leaves only two burners available
- In this example, two 4 qt. pans won't fit on the cooktop at the same time as the other cookware
- **Gemini delivers less than GE**

## Show and tell

### Lower oven demo

- Plug in range to any standard 120-volt outlet.
- Remove all use and care, installation instructions, etc., from the upper and lower ovens.
- Place two 9 x 13 casserole dishes in the lower oven on the baking rack.
- Show the consumer the huge 5.0 cu. ft. upper oven, point to the graphic on the backsplash "Double Oven Range." Show them the knob control for the oven and tell them it is an electric oven that bakes from 150 to 450 degrees. Then pull open the lower oven.
- Tell the consumer that this range has two ovens. Both ovens can be used at the same time to cook two different dishes at different temperatures. Lift out the casserole dish and hand it to the customer and tell them the lower oven is ideal for a 9 x 13 casserole, as well as pies, cookies, rolls, biscuits, muffins, and pizza.
- Lift out the lower oven liner to show them it can be removed for easy cleaning.

### Griddle demo

- Show the consumer that the cooktop has five burners, two all-purpose burners, one high temperature PowerBoil™ burner, one small Precise simmer burner and GE's exclusive large oval center burner.
- Explain that pans can be used on any of the five burners using the center grate.
- Remove the center grate and replace it with the customer-engineered non-stick griddle. Point out that the burner and griddle were designed for each other.
- Tell them the griddle is ideal for eggs, bacon, sausage, pancakes, grilled sandwiches, warming tortillas, and many other uses.
- Point out how much more useful this cooktop design is than traditional five-burner gas range cooktops.
- Tell them GE includes the griddle at no charge.
- Cookware shown: (2) 4 qt. sauce pans, 3 qt. sauce pan, 3 qt. saute pan and griddle.

Sales demo mode

- Plug the range into any standard 120 volt outlet.
- Remove all tape, plastic and paper from inside the oven (just in case the oven control is left on bake or broil which can activate the glowbar igniter).
- Press and hold both the BAKE and BROIL pads at the same time, hold until SF appears in the display.
- Then, at the same time, touch the CLOCK and KITCHEN TIMER pads.
- The control will then continuously scroll through each oven function.
- To end the sales display mode touch the START pad.

**With the range plugged in, the following can be demonstrated:**

- Oven Light & the Big ClearView™ Window
- Digital time and temperature displays
- Hi/Lo broil settings
- Variable self clean time
- Automatic self clean door latch
- Convection bake control setting fan operates
- Convection roast control setting fan operates
- Reminder timer

Tubular free-standing display

Designed to display a free-standing range and an Advantium™ or Spacemaker® microwave oven.  
72-1/2"H x 32-1/4"W x 25"D  
Pub. No. 4-D001

Free-standing or slide-in/drop-in display

Designed to display a free-standing, slide-in or drop-in range and an Advantium or Spacemaker microwave oven.  
82"H x 44"W x 26-3/4"D  
Pub. No. 3-D131

## Feature gallery: GE Profile™ 36" and 30" electric cooktops

### Frameless ceramic glass cooktop

Provides a clean and seamless design to make cleaning quick and easy.

### 12"/9"/6" tri-ring element

Accommodates various-sized pots or pans for the ultimate in cooking versatility.

### Ribbon heating elements

Provide powerful heat beneath a smooth glass surface to ensure even heat and fast warm-up times.

### Control lock capability

Provides the ability to lock the cooktop's controls, helping protect from unintended activation.

### Dishwasher-safe knobs

Feature a robust construction for safe and easy cleaning.

### Heavy-duty die-cast knobs\*

Add durability and brushed chrome for enhanced style and performance.

GE Profile model JP970

**Melt option**

Maintains the optimal 110° temperature for melting delicate foods like chocolate or butter—eliminating the guesswork.

**Adjustable elements**

Offers a convenient choice of using a 6"/9" or 5"/8" heating element, depending on the size of the pan.

**Upfront controls (36" models only)**

Provide access at the center of the cooktop for quick and easy reach.

**Hot surface indicator lights**

Illuminates when the cooking surface is active or hot, adding convenience and safe caution.

**Simmer option**

Delivers the ideal 140° temperature for the gentle simmering of foods like soups or sauces.

**Bridge element**

Combines two elements into one large cooking surface.

\*Available on JP970SKSS/JP940SKSS only

## Feature gallery: GE Profile™ digital electric cooktop

### Electronic touch controls

Replaces traditional dial controls with digital buttons that are precise and easy-to-use.

### Precise Digital Control System™

Delivers accurate temperature control on the cooktop ensuring even heating and less temperature variation.

### Frameless ceramic glass cooktop

A smooth cooktop surface makes cleaning quick and easy.

### Electronic kitchen timer

Provides convenient notification to help coordinate meal preparation and cooking times.

### Pan presence sensors

All elements detect when a burner element is left "on" and automatically shut off when not in use.

### Adjustable elements

Offers a convenient choice of using a 6"/9" or 5"/8" heating element, depending on the size of the pan.

GE Profile model JP980

**Warming capability**

Provides low heat capability for foods, making meal coordination simple.

**Pan size sensor**

Automatically adjusts the heating element to the size of the pan.

**Control lock capability**

Provides the ability to lock the cooktop's controls, helping protect from unintended activation.

**Upfront controls (only on 36" models)**

Controls are placed within easy reach at the front center of the cooktop.

**Hot surface indicator lights**

Illuminates when the cooking surface is hot, adding convenience and safe caution.

**Heating element "ON" light**

Illuminates when the cooking surface is activated.

- Ceramic glass cooktop
- Ribbon heating elements
- 6"/9" dual element
- Frameless design
- Hot surface indicator lights
- Control lock capability

## Show and tell

### GE Profile™ gas cooktops

#### Dual-flame stacked burner

- Have a qualified technician hook-up the GE Profile cooktop to either natural gas or LP according to all installation instructions.
- When selling to the consumer turn the knob to light the burner, then to the highest temperature setting.
- Show them both the upper and lower rings of flame.
- Explain that this is a very powerful 18,000 BTU burner ideal for fast boiling, frying and wok cooking.
- Now turn burner to lowest setting.
- This demonstrates that the upper ring of flame disappears and only the very small, lower ring of flame remains.
- Explain that this is 2 burners in 1. High-power, high-heat and a gentle low-heat burner ideal for delicate sauces, low 140° cooking. The same gentle, low-heat delivered by the Precise simmer burner.

Only GE has it!

#### Control lock capability

- Have a qualified technician hook-up a GE Profile gas or electric cooktop according to all installation instructions.
- Have the consumer turn on any cooktop burner. Then have them turn the control lock knob to the locked position.
- Explain that control lock immediately turns every burner off. Tell them the buzzing noise is a reminder that the cooktop is locked AND one or more burner knobs are turned on.
- Turn off the knob that is on and the warning buzzer stops. Show them that when the cooktop is locked and any burner is turned on the buzzer will sound.
- Point out the “Locked” reminder light by the control lock knob.

## GE Profile electric cooktops

### 12"/9"/6" tri-ring element

- Have a qualified technician hook-up the GE Profile electric cooktop according to all installation instructions.
- Have the consumer turn on the large tri-ring element. Explain to them it is three elements in one—12", 9" or 6".
- Then have them turn the selector knob to see the change in the size of the heated surface. Tell them that the 12" element will accommodate pans up to 14" in diameter.
- Show them the second adjustable 5"/8" dual element and that it operates the same way.

### Pan presence sensor

- Have a qualified technician hook-up the GE Profile electric cooktop according to all installation instructions. You will need at least one large metal pan 9 to 10 inches in diameter.
- (Option – order 120 volt demo cord kit pub # 3-A050)
- Turn on any element. Look at the "PAN SENSOR" pad. If the red light does not glow beside pad touch the "PAN SENSOR" pad to activate the sensors.
- Have the consumer turn on any element and touch the "+" pad for that element.
- Show them that the "H", for high, flashes until a pan is placed on the element. Remove the pan and show them that the "H" starts to flash again.
- Explain that if the pan is not returned to the element the cooktop will turn that element off in approximately 70-80 seconds. All the elements have the pan presence sensor. Explain that the two large adjustable size elements will automatically change the size of the heated area if a very small or very large pan is placed on those elements.

## Show and tell

### Five-unit cooktop display

Offers the convenience of displaying five cooktops in a single display. Designed to display:

- Four 30" cooktops
- One 36" cooktop

82"H x 43-1/2"W x 27-7/8"D

Pub. No. 3-D001

### 30" wall oven display

Show the versatility of the 30" wall oven with an undercounter installation.

Designed to display:

- 30" single oven
- 30" cooktop and an Advantium or Spacemaker microwave oven

82"H x 44"W x 26-3/4"D

Pub. No. 3-D081

### Down-draft cooktop display

Designed to display:

-Electric or gas down-draft cooktop

37-3/4"H x 48"W x 27"D

Pub. No. 3-D150

### Electric cooktop demo cord kit

Provides power to all controls, but will not energize heating elements. Kit contains one cord, wire nuts, electrical tape and instructions.

For use with JP980 and JP950 only.

Pub. No. 3-A050

## GE Profile™ gas cooktop

### Engaging Style

Enhanced cooktop surface with **continuous grates and heavy-duty die-cast knobs** features a smooth and clean design to provide a seamless appearance that is universally attractive, durable and professional.

### Easy Cleanability

Deep recessed or gas-on-glass cooktops with **dishwasher-safe gates and knobs** create a cooking environment that is not only functional, but also easy to clean and maintain.

### Extraordinary Versatility

**Power Boil™ and Precise Simmer burners** offer high-performance capabilities to do more at once.

## GE Profile electric cooktop

### Engaging Style

Enhanced cooktop surface with **a curved front edge and heavy-duty die-cast knobs** features a smooth and clean design to provide a seamless appearance that is universally attractive and durable.

### Easy Cleanability

**Ceramic glass cooktop with dishwasher-safe knobs** create a cooking environment that is not only functional, but also easy to clean and maintain.

### Extraordinary Versatility

**12"/9"/6" Tri-ring and 6"/9" dual elements** provide multiple cooking areas in one to accommodate various-sized pots or pans. Users can customize the heating element to meet their needs, helping maximize performance and produce ideal results.

All GE ranges are equipped with an Anti-Tip device. The installation of this device is an important, required step in the installation of the range.

Gas self-clean range anti-tip bracket (part no. 205C1714P001)

J2B918, JGB928/918/916/908/900, JGBP90/88/85/28/26/24

## Installation information (in inches) Model J2B915

### Recommended area for gas outlet

Recommended area for through-the-wall connection of pipe stub/shut-off valve.

This area allows for flush range installation with the rear wall.

Recommended area for through-the-floor connection of pipe stub/shut-off valve.

### Recommended area for electric outlet

Recommended acceptable electrical outlet area. Orient the electrical receptacle so the length is parallel to the floor.

Product is shipped with a 4-prong plug. Recommended outlet is a NEMA 14-50R receptacle.

## Installation information (in inches) All models except J2B915

Recommended area for 120V outlet on rear wall and area for thru the wall connection of pipe stub and shut-off valve

Recommended common area for gas outlet and electrical outlet

Recommended area for thru the floor connection of pipe stub and shut-off valve

### Optional gas range accessory drip pans for sealed and standard burner models (Available at additional cost)

To order these accessory drip pans, call toll-free 800-626-2002.

**Installation Information:** Before installing, consult installation instructions packed with product for current dimensional data.

\*Allow 5-3/4" depth at rear for electrical and gas connections.

\*\*Raised bull nose countertops will require up to 3/8" additional clearance to prevent interference with curved front.

**Note:** All gas cooktop models require 7/16" free area below cooktop height to combustible material. 0" clearance is required between left and right sides of cooktop below countertop. Requires 18" minimum from countertop to adjacent overhead cabinets.\* \*AGA requirement.

**Note:** If installing with a GE Profile telescopic downdraft system, consult both cooktop and downdraft installation instructions packed with product before installing. Cooktop gas/electric supply may need to be re-routed to install downdraft.

\*\*Raised bull nose cooktops will require up to 3/8" additional clearance to prevent interference with curved front.

## Built-in CleanDesign cooktops

Requires a 5" free area between the bottom of the cooktop to any combustible material, i.e., shelving. Free area not required when installing wall oven underneath cooktop. Refer to installation instructions. Units are furnished with a 48" flexible armored cable.

36" Ribbon Cooktops are approved for use over GE 30" Single Wall Ovens and Warming Drawers. 30" Ribbon Cooktops are approved for use over GE 30" and 27" Single Wall Ovens and Warming Drawers. Refer to cooktop and wall oven installation instructions packed with product for current dimensional data.

**Notes:** If installing with a GE Profile Telescopic Downdraft System, consult both cooktop and downdraft installation instructions packed with product before installing. Cooktop gas/electric supply may need to be re-routed to install downdraft.

The countertop must be at least 26" deep with a flat surface area of 23-1/2" or more, front to back. Stainless CleanDesign and gas on glass cooktops require 23-5/8" flat surface area. In addition, other clearances to the front edge of the countertop must be considered.

**Note:** Consult cabinet and countertop manufacturer's specs for flush mount installation prior to install.

## Filler trim kit

When replacing an old GE 30" cooktop (with larger opening) with Models JP939/931/930/350/340, use the following one-piece trim kit to fill in the over-size hole. Available at additional cost.

- JXTR32W (True White)
- JXTR32C (True Bisque)
- JXTR32B (Black—use with black glass cooktops with a white, bisque or black pattern)

## Flush mount installation kit

Accommodates both 30" and 36" installations. Not for use with stainless steel models.

- JXFLM2TW (True White)
- JXFLM2CC (True Bisque)
- JXFLM2BB (Black—use with black glass cooktops with a white, bisque or black pattern)

## Installation information:

Before installing, consult installation instructions packed with product for current dimensional data.

## Counter installation dimensions (in inches)

## Built-in electric cooktops

Required free area between the bottom of the cooktop and any combustible material, i.e., shelving is 5" minimum on models JP626/328 and 1-1/2" minimum on models JP201/202. Free area not required when installing wall oven underneath. Requires an 18" minimum from cooktop to adjacent overhead cabinets. Units are furnished with a 48" flexible armored cable.

Cooktop model JP328 is approved for use over select GE 27" or 30" Single Wall Ovens. JP626 is approved for use over GE 30" Single Wall Ovens only. Refer to cooktop and wall oven installation instructions packed with product for current dimensional data.

Cooktop models JP201CB and JP202D are approved for use over GE undersink dishwasher model GSM2100. Refer to cooktop installation instructions packed with product for current dimensional data.

**Note:** JP626 may be installed with a GE Profile Telescopic Downdraft System. Consult both cooktop and downdraft installation instructions packed with product before installing. Cooktop gas/electric supply may need to be re-routed to install downdraft.

**Note:** The countertop must be at least 26" deep with a flat surface area of 23-1/2" or more, front to back. In addition, other clearances to the front edge of the countertop must be considered.

**Filler trim kit**—When replacing an old GE 30" cooktop (with larger opening) with Models JP328WF, JP328CF, JP328BF, JP328SF, use the following one-piece trim kits to fill in the over-size hole. Available at additional cost.  
 JXTR31W (White)  
 JXTR31C (Bisque)
