GE® 115 Volt Built-In Cool-Only Room Air Conditioner

DIMENSIONS (IN INCHES)

INSTALLATION INFORMATION: A finished opening of 26-1/8" x 15-3/4" clear of intrusions is required. Keep clearance of 4" from side walls. Brick veneer or frame walls should have wood studding surrounding case to provide firm anchoring with screws. Case can be fastened directly to brick or block walls with screws sunk in lead expansion shields.

NOTE: Units should be caulked on all four sides of case to the building exterior to assure building integrity.

WALL CASE FOR TENANT OPTION INSTALLATION

When the air conditioner is offered as a tenant option, this wall case provides protection against outside elements.

RAB48 – includes wall case, exterior grille, steel closure panel and two layers of insulation.

STANDARD WALL CASE RAB46

Solid-sided wall case fabricated of galvanized steel with baked enamel finish. Welded areas are coated with a sealing compound to help resist rust and corrosion. Polymer gasket surrounds opening to assure tight weather seal. Aluminum grille (RAG13) is included. Panels on interior and between case and grille provide weather protection prior to installation of chassis. Provide firm anchoring with screws. Case can be fastened directly to brick or block walls with screws sunk in lead expansion shields.

Frame Construction

Flexible Mounting Position

Brick Block and Brick Frame Construction

GE® 115 Volt Built-In Cool-Only Room Air Conditioner

FEATURES AND BENEFITS

True Built In Design – The ultimate fit & finish for more usable space and the best in built-in installation. Sleeve and chassis are perfectly integrated, creating a seamless fit without leaks or gaps

Premium Finish – Bright, clean color & a decorative metallic silver accent encasing the air discharge louver, provide an overall sleek appearance

Electronic Cap Touch Controls – Controls offer a high-end and smooth to-the-touch panel

Large LCD Auto-Dimming Display – Intuitive & large white LCD display can be easily seen from anywhere in the room. Convenient Auto-Dimming feature provides ambient lighting during the night

Slim Room Front – A slim room front provides more usable space in the room. It's the sleekest design in the industry

ECO Mode – Innovative mode where the fan cycles off during cooling intervals, creating energy savings while keeping the room comfortable

Dry Mode – Designed for humid environments, it helps provide a dryer & more comfortable atmosphere with room-air dehumidification

Auto Mode – Automatically select heating or cooling mode and fan speed to maintain the current temperature setpoint. It monitors the room temperature for optimal comfort

6-Way Directional Airflow – Direct where the air flows with up to 6 directional vents—cooling and/or heating the areas of the room that need it the most

Washable Filter – Easy to remove and rinse clean, the filter helps remove dust and other particles from transmitting in the air—providing a cleaner environment

Remote Control Included – Slim, intuitive and easy to use, the remote control enables adjusting temperatures and settings conveniently from anywhere in the room

Quiet Performance – Designed & engineered by GE Appliances for ultra-quiet comfort

Commercial Grade – Designed for durability with high-grade components and tested for long performance

ENERGY STAR® Certified Options – Qualified air conditioners can help save energy consumption and utility costs while cooling your room

Model AJCQ06LCH – Soft Gray
