GE® 230/208 Volt Built-in Cool-only Room Air Conditioner

DIMENSIONS (IN INCHES)

INSTALLATION INFORMATION: A finished opening of 26-1/8" x 15-3/4" clear of intrusions is required. Keep clearance of 4" from side walls. Brick veneer or frame walls should have wood studding surrounding case to provide firm anchoring with screws. Case can be fastened directly to brick or block walls with screws sunk in lead expansion shields.

NOTE: Units should be caulked on all four sides of case to the building exterior to assure building integrity.

WALL CASE FOR TENANT OPTION INSTALLATION
When the air conditioner is offered as a tenant option, this wall case provides protection against outside elements.

RAB48 – includes wall case, exterior grille, steel closure panel and two layers of insulation.

STANDARD WALL CASE RAB46

Solid-sided wall case fabricated of galvanized steel with baked enamel finish. Welded areas are coated with a sealing compound to help resist rust and corrosion. Polymer gasket surrounds opening to assure tight weather seal. Aluminum grille (RAG13) is included. Panels on interior and between case and grille provide weather protection prior to installation of chassis. Provide firm anchoring with screws. Case can be fastened directly to brick or block walls with screws sunk in lead expansion shields.

Frame Construction

Flexible Mounting Position
